OMAHA, Neb., July 13.—(U. S. Bureau of Agricultural Economics)—

Believe that the New York federal reserve bank will soon cut its present rate of 4 per cent.

Shortly after the London bank low-cred its rate from 4 to 3½ per cent on June 15 the local reserve bank strough-out the country followed suit. Within the past few weeks rediscounting operations within the federal reserve system have expanded about \$3.000.

WASHINGTON, July 13.—Reduction of the rediscount rate of the Bank of England from 3½ per cent to 8 per cent was regarded today at the treasury as being unlikely to affect the rediscount rate of the American federal reserve system. High treasury officials declared that no occasion was seen for a reduction of federal reserve system rate below of federal reserve system rate below the part of the serve bank.

CROPS TO BE BIG

CHICAGO. July 13.—Immense production of apples and potatoes in the United States this season is expected, according to a statement issued chretoday by the federal bureau of agricultural economics.

The apple crop looked for exceeds more than 10,000,000 barrels the crop gathered last year and potatoes production indicated is the largest since the bumper crop of 1917.

An approach to half a billion bushels of potatoes is the forecast of the coming crop, the actual estimated total being 428,507,000 bushels, as against 345,823,000 bushels in 1921. The output of the five leading states in 1922 is calculated as follows:

Minnesota 42,905,000 bushels.

Michigan 35,516,000 bushels.

New York 34,712,000 bushels.
